

## 360° SPORTS STOOL™

Unfold the frame. The "shock cords" will automatically align the tubes. Ensure all tubes are married and secure.

Splay open the frame (as shown) so that the anti-splay panel is on the bottom.

Attach the swivel seat by inserting the leg tops into the three molded "pockets" under the seat. Do not rest the leg tops in the "pie slices."

Locate the three lock hinges on swivel seat. Rotate each hinge with your fingers to lock each hinge.

The stool is now ready to be used!

Reverse set-up instructions.
